Ideation phase

Define the problem statements

Date	30 September 2022
Team ID	PNT2022TMID32788
Project Name	Efficient water quality analysis and prediction using Machine Learning
Maximum marks	2 marks
Team members	V.S.Roshana - 813819106086 K.Sneha - 813819106099 M.S.Sneka - 813819106100 J.Sravani Sowmya Shri - 813819106102

I am	I'm trying to	But	Because	Which makes me
Agriculturalist	get efficient water for my fields	standard of water is not stable for the crops	the source of water is being polluted and affects the cultivation	struggle in agriculture and produces less yield

I am	I'm trying to	But	Because	Which makes me
Environmentalist	Build a safe and healthy environment for the future	industrial waste affects the quality of water	the hazardous outlet of the industries affect the water quality	feel worried and vulnerable on consuming unsafe water
